

It's not right that the Sinclair Broadcasting Group plans to air an anti-Kerry smear campaign TV program shortly before the election titled "Stolen Honor".

I find it repulsive that the FCC would allow a company free access to public airways to sway public opinion for its own political (spelled "money" and "greed) interests. Radio and TV are supposed to serve our communities by providing diversity in communication. It is the duty of the FCC to enforce democracy in the media.

We, the people, do not want one-sided views of the news. Please prevent Big Media from consolidating their power and interests. The constitution backs you up. Use it or lose it! Thank you.
